JUNE, 1975

Prince B. Woodard

Fifth President Inaugurated

In a colorful ceremony witnessed by more than 1,400 people in the Auditorium of George Washington Hall, Prince B. Woodard was inaugurated April 11 as the fifth President of Mary Washington College.

Representatives from learned societies, other colleges and universities and from State government were among those in attendance at the hour-long ceremony which was keynoted by an address from Virginia Governor Mills E. Godwin Jr., and an inaugural speech by Dr. Woodard.

The official investiture came approximately nine months after Dr. Woodard assumed the Presidency of the College. Woodard, 53, came to MWC from his position as Chancellor of the West Virginia Board of Regents, the body which oversees that state's entire system of higher education. As President of MWC, he follows Edward H. Russell, Algernon B. Chandler, Morgan C. Combs and Grellet C. Simpson as head administrative officer of the institution.

Governor Godwin's brief remarks prepared for the ceremony had a personal tone as he spoke of Dr. Woodard and his own long association with the man who headed the State Council of Higher Education in the first Godwin administration.

"By education and training, by variety of experience, Prince Woodard comes to us admirably equipped to carry on the fortunes of Mary Washington College," Godwin said of Dr. Woodard.

Prior to the inauguration ceremony, Dr. Woodard talks with Justice Albertis S. Harrison Jr., Rector Lewis M. Walker Jr., and Governor Mills E. Godwin Jr.

Concerning the College's place as one of Virginia's few distinctly liberal arts institutions, Godwin said that he sensed that "the pendulum is swinging back from the new math and the new morality and that as we search desperately for other answers, we will turn again to liberal arts to find them."

Woodard's inaugural address outlined his expectations for the College.

He lauded the administrations of former Governor Harrison and Governor Godwin for the progress in higher education, especially the bond-issue financing, the development of the community college system and college diversity. He charged the State to continue its commitment to higher education financially and in developing more "sophisticated state-level and institutional planning."

"Sizeable support," Dr. Woodard told the gathering, "is needed to provide continuing education opportunity for the adult population, to upgrade libraries, and to advance faculty salaries toward the national average ranking." Dr. Woodard told the audience that more state funding was needed to reduce Virginia's tuitions, some of the highest in the nation.

More institutional planning, Dr. Woodard said, would insure "maximum return flows from each dollar spent."

In his personal goals for the College, Dr. Woodard said, "I accept the leadership responsibility of this college with the pledge to promote, with vigor, its mission as a liberal arts college of excellence and as a college in partnership with the community."

Dr. Woodard noted that there were no plans to enlarge campus enrollment or existing facilities and that the college will remain oriented to the liberal arts and not grow into a "multi-purpose institution."

In addition to the major addresses, welcoming speeches to the new president were made by Mr. Lewis M. Walker Jr., Rector of the MWC Board of Visitors, Miss Mary Mahon, president of the Student Association, and Mrs. Virginia F. Brown, the president of the Alumni Association. The actual induction of the President was performed by Justice Albertis Sydney Harrison, Jr., of the Virginia Supreme Court of Appeals.

The inauguration ceremony was the start of a very busy weekend at the College, a three-day span which included the annual alumni homecoming activities, performances by the MWC Dance Company and the College Community Orchestra, several art exhibits, a concert by the MWC Chorus and five productions of the hit comedy "You Can't Take It With You," as performed by the MWC Players.

Dr. Eloise Clark Named 1975 Distinguished Alumnus

Dr. Eloise E. Clark, Director of the National Science Foundation's Division of Biological and Medical Sciences, was selected as this year's Distinguished Alumnus of Mary Washington College. The announcement of the honor was made during Homecoming Weekend, April 11-13.

Dr. Clark, a native of Abingdon, Va., earned a degree in biology from MWC in 1951 and a Ph.D. in zoology at the University of North Carolina in 1958. She was an NIH post-doctoral fellow in the Department of Microbiology, Washington University, and later taught at the University of North Carolina and Columbia University before joining the National Science Foundation (NSF) in 1969.

Originally a program director for developmental biology at NSF, Dr. Clark was made Section Head for Molecular Biology in 1971 and was named, in 1973, as Division Director of Biological and Medical Services.

As Division Director, Dr. Clark supervises the activities of four Sections: Cellular Biology, Ecology, Molecular Biology and Physiological Processes. The Division is

Dr. Eloise E. Clark

responsible for the administration of approximately 3,400 research grants and has an operating budget of more than \$57 million.

A member of Phi Beta Kappa, Sigma Xi and the American Institute of Biological Science, Dr. Clark has also served on the councils of the American Association for the Advancement of Sciences and the American Society for Cell Biology.

She has also been active in the MWC Alumni Association, having served on the executive board from 1967-70, and having been instrumental in establishing the Distinguished Visitor in Residence Program at the College.

Board of Visitors Holds Meeting

Financial and personnel matters highlighted the docket of the April meeting of the Mary Washington College Board of Visitors. Action taken by the 12-member Board included: a decision to maintain tuition and general college fees for 1975-76 while increasing student room and board charges; the promotion of seven faculty members; the naming of three new professors emeritus; and the selection of ten departmental chairmen.

In a move designed to offset substantial increases in the cost of operating the College dining hall and residence Halls, the Board approved a \$96 rise in room and board charges per semester. Neither tuition nor general college fees, however, were increased from the 1974-75 fee schedule.

The dining hall and the residence halls are among the "auxiliary" or self-supporting enterprises of the College and receive no State funds for their operation. According to the Board, costs in these areas - particularly in food and utility expenses - have spiraled upward in the past year, and in order to maintain the necessary "break-even" stature in these areas fees had to be increased for 1975-76.

Additionally, the Board approved the promotions of seven faculty members. At MWC, the steps within an academic department rise from instructor to assistant professor to associate professor to professor.

Promoted from assistant professor to associate professor were: John M. Albertine, economics and political science; William B. Crawley, history; Mary W. Pinschmidt, biology; Arthur L. Tracy, history; and Janet M. Zelez-nock, mathematics. Promoted from associate professor to full professor were Marshall E. Bowen, geography, and Roger J. Bourdon, history.

In other personnel matters, three long-time professors who are slated to retire at the end of this school session were named by the Board to be professors emeritus of the College upon their retirement. Selected for this honorary title are Almont Lindsey, professor of history, Claudia Read, professor of health, physical education and recreation, and Carmen L. Rivera, professor of modern foreign languages.

Dr. Lindsey, author of *The Pullman Strike*, has been a member of the College staff since 1937. Mrs. Read, who specializes in dance instruction, will retire this June after 30 years at the College. Mrs. Rivera, a recipient of the Grellet C. Simpson Award for excellence in undergraduate teaching, has taught Spanish at the College since 1955.

The Board also approved the appointments of ten faculty members as chairmen of their academic departments. New appointments to chairmanships are: John M. Albertine, economics and political science; William B. Crawley, history; and Margery E. Arnold as acting chairman of health, physical education and recreation. Reappointed as chairmen of their individual departments were: Laura V. Sumner, classics; Roger L. Kervin, dramatic arts; Samuel T. Emory, geography; Alexander J. Lindsey, mathematics; Anne F. Hamer, music; George M. Van Sant, philosophy; and Roy B. Weinstein, psychology.

The Board of Visitors also elected Neil R. Howard to the College faculty as an instructor in dramatic arts. Mr. Howard, former director of the Keene, N.H., Summer Theater, will join the faculty for the 1975-76 session.

In other action, Margaret M. Hoffmann, professor of modern foreign languages, was appointed as a faculty adviser in the Office of Academic Advising. Mrs. Hoffmann, who will continue to teach French half-time, will assume her new responsibilities as of August 16, 1975.

Faculty Highlights

Two faculty members at Mary Washington College have been selected as Outstanding Educators of America for 1975.

Dr. Samuel T. Emory, professor of geography, and Dr. Raman K. Singh, associate professor of English, were among those named for the national honor. Guidelines for selection include an educator's talent in the classroom, contributions to research, administrative abilities, civic services and professional recognition.

Juanita H. "Mickey" Clement has been named Dean of Student Services at Mary Washington College.

Miss Clement, an associate professor of health, physical education and recreation, will succeed Miss Mildred Dreese, current Dean of Students, who has elected to return to full-time teaching at the College. Miss Clement will assume the administrative post - which deals mainly with campus residential life - on July 1.

The change of title to Dean of Student Services is in keeping with a planned expansion of on-campus activities for students.

A member of the College staff since 1969, Miss Clement is presently serving as director of athletics and as coach of the tennis team in addition to teaching several courses in her department.

Cornelia Oliver, professor of art, has been appointed as Mary Washington College's Assistant Dean for Academic Advising. The three-year presidential appointment becomes effective July 1.

Mrs. Oliver, a member of the MWC faculty since 1958, will succeed Susan Hanna, who has chosen to return to full-time teaching in the Department of English. A member of the College Art Association of America, Mrs. Oliver is a graduate of Smith College, holds a master's degree from Duke University and a doctorate from Catholic University.

Noted chorographer Agnes deMille visited with students in and out of class during her April 15-17 stay as the College's fifth Distinguished Visitor in Residence.

Memorial Award Honors 1973 Graduate

A memorial fund and art award have been established at Mary Washington College in memory of Ann Elizabeth Collins, a 1973 graduate who died recently in California after a long illness.

Funded by gifts from relatives, friends and former teachers, the Ann Elizabeth Collins Memorial Art Award will be presented annually to the MWC student who shows the best promise of development in pen and ink drawing and in the graphic arts. The memorial fund, now endowed at \$1,000, will make possible an annual gift of \$50 to accompany the award.

Miss Collins, who died April 20 in Anaheim, California, was a studio art major at MWC and was a frequent exhibitor in student art shows. A Dean's List student while at the College, she also majored in history and held membership in Pi Gamma Mu and Phi Alpha Theta, social science honorary societies. Her sister, Cathleen Carol Collins, was a member of the MWC class of 1974.

Contributions to the memorial fund should be directed to the Office of the Comptroller, and checks should be made payable to Mary Washington College with the specification that the money be added to this special fund.

Student Highlights

For the seventh time in the past eight years, a Mary Washington College senior has been selected for a position in Virginia's Commonwealth Intern Program.

Laraine M. Kelley, of Waldwick, N.J., has been chosen as one of only five from the State who will participate in the 1976 revolving intern program within the State administrative system. The internship, which will begin July 1, 1976, and which will last one year, allows recent graduates to work in a variety of State agencies and to participate directly in each department's operation.

Former Mary Washington College students who were selected as Virginia Commonwealth University interns are Mrs. Ann Campbell Wright, 1968; Mrs. Janis Cash Weisburg, 1969; Miss Patricia Kelley, 1971; Miss E. C. Holloway, 1972; Miss Judith Rose Parker, 1973; and Miss Lauree Anne Corner, 1974.

An annual award named in honor of Dr. Almont Lindsey, the professor of history who retired this year after more than 35 years on the MWC staff, has been established by Mary Washington College.

The award, which will be presented each year to the outstanding graduating history major, was presented to Miss Elaine Marie Williams of Spotsylvania, Virginia.

The recipient of this year's Mary Washington College Alumni Award was Mary Katherine Bundy of Houston, Texas, and the recipient of this year's Kiwanis Club Award was Yvonne Puryear of Petersburg, Virginia.

Mary Louise Dunn Davis, '30, of King George, Va., stands with President Woodard and one of the two dried flower arrangements she presented to the College, which now grace the foyer of George Washington Hall.

Dr. Inesly Honored

Graduation Held May 17

Mary Washington College conferred bachelor's degrees on 388 graduating seniors during traditional commencement exercises held in the Auditorium of George Washington Hall on May 17.

During the ceremony, the top student academic award of the year was presented to Jan Ellen Hausrath, an American Studies major from Bay Shore, N.Y., and the Simpson Award for excellence in undergraduate teaching was presented to Dr. Earl G. Inesly, a professor of chemistry at the College for more than 30 years.

Dr. Prince B. Woodard, the recently inaugurated President of MWC, presided over the College's sixty-fourth commencement and delivered the major address to the graduates.

The Darden Award, given to the senior who has the highest academic average during the four years at MWC, was presented to Miss Hausrath for having achieved a 3.89 average on a 4.0 scale. The Award, which was established in honor of Colgate W. Darden, Jr., former Governor of Virginia, consists of a medal, designed by Gastano Ceceore, formerly of the MWC Department of Art, and a cash sum.

Miss Hausrath, who was selected as a junior to Phi Beta Kappa, the nation's oldest and most prestigious honorary society, was graduated with highest distinction and with final honors.

Dr. Inesly, who is the fourth recipient of the Grellet C. Simpson Award for Excellence in Undergraduate Teaching, has been teaching chemistry at the College since 1941. A native of Maryland, he is a graduate of Johns Hopkins University and received his Ph.D. from that institution. He is a member of numerous professional societies, including the American Chemical Society, the Virginia Academy of Science and the Society of Sigma Xi.

Dr. Inesly's daughter, Joanne Inesly Pearce, is a 1967 graduate of Mary Washington College who, in her senior year, was the recipient of the Thomas Jefferson Cup Award for outstanding service to the College.

The Simpson Award, while directed toward an individual faculty member, is also an acknowledgment of the emphasis marking all faculty endeavor and the whole

Dr. Earl G. Inesly

instructional program of the College. The symbol of recognition is a silver rose bowl designed and executed especially for this award. Included also in the presentation is a check, drawn on the trust fund which established the award.

In addition to the Darden Award and the Simpson Award, there were fifteen students awarded final honors and eight students who graduated with highest distinction (3.75 average or better over the four-year span). Departmental honors were conferred on eight other students.

In Dr. Woodard's short message to the graduates, he noted that our society is "greatly confused and fragmented," one which is becoming "increasingly insensitive to the still, small voice of controlling purpose."

He pointed out that "only individual self-examination and self-inspection by each citizen can reverse this course and preserve what we treasure."

For the graduates, Dr. Woodard had a two-fold suggestion. First, he said, each of the students should "utilize to the utmost the intellectual benefits and value system fostered by this College," and secondly, that each student has the responsibility to occasionally "step aside, out of the noisy, pushy crowd" and "take a prospect of all elements relevant to the issue of the hour. Weigh both immediate and long-range consequences of alternative action plans. Inspect thoroughly your motives for action; weigh these on the scale of Christian conscience."

Dr. Woodard closed the commencement program by challenging the graduates to fulfill their "clear duty" to make the best of the educational benefits they had received and to do the best with the powers with which each of them was endowed.

Gavel Points

Virginia Felts Brown, '50
President, MWC Alumni Association

The Inauguration - Homecoming weekend, April 11-12, were certainly "red-letter" dates in Mary Washington College community. Beginning with the colorful academic procession that culminated with the impressive inaugural ceremony that officially installed Dr. Prince Briggs Woodard as our fifth president, until the strains of "Good-night Sweetheart" played by Levin Houston's band at midnight Saturday, those days were truly an "occasion for celebration."

Between these two points in time many events were scheduled to honor Dr. and Mrs. Woodard and the returning alumni. It was gratifying to see so many of you come back, and those of you who couldn't make it, we missed you. I hope that all of you who returned availed yourself of one of the many opportunities to meet Dr. Woodard and become acquainted with him. MWC is indeed fortunate to have such dynamic leadership.

The annual meeting Saturday morning was well attended, and Dr. Woodard was the featured speaker for the program. We were especially pleased to have Lewis Walker, rector of the Board of Visitors, bring greetings and introduce the other members of the Board to those present. Eight of the Board members are alumni.

One of the highlights of the morning session was recognizing the reunioning classes. The Golden Anniversary class of 1925 established an attendance record that will certainly be hard to beat. There were seven members (five were physical education majors) of the graduating class that year. All seven are hale and hearty and six returned. The seventh member lives in Hawaii and sent a telegram to the group. This was just a fantastic reunion!

These "girls" and all the others who returned from the classes of 1913-24 were introduced and during the afternoon, were entertained at Spotswood. At that time the Golden Club was organized which hopefully will help to sustain the interest of a very special group.

At the February Alumni Board of Directors meeting, it was decided to make the Emeriti Professors and the retired faculty honorary members of the Association. The invitation was extended to forty-five and it was a real pleasure to have twenty with us at our annual

meeting. We look forward to a continued association with these people who made our days at MWC so fruitful.

As always, one of the Homecoming highlights is the honoring of one of our distinguished alumni. This year's recipient was Elizabeth (Betty) Clark '51. She has had a most distinguished career as a micro-biologist and is now the Division Director of Biological and Medical Sciences of the National Science Foundation in Washington, D.C.

Also on hand to be presented to the group was Barbara Austin, the recipient of the second Grellet C. Simpson International Scholarship. Barbara is a sophomore math major and has planned a year's program of study at the University of Bath in England.

Mary Katherine Bundy, a senior from Houston, Texas, was introduced to the group as having received the MWC Alumni Award at the Senior Convocation. She is a double math and economics major and has made a most impressive record during her years at MWC.

These are just a few of the happenings that made the Inauguration - Homecoming weekend such a memorable one.

Nominations Needed For Alumni Association Posts

Helen Stornell Wills '42, President Elect and Nomination and Election Committee Chairman for the Alumni Association requests nominations for the following positions on the Board of Directors:

- * **President Elect**
- * **Fourth Vice President in charge of classes**

Successful candidates for these positions will serve two-year terms beginning July 1, 1976.

The Vice President for classes has the responsibility for stimulating, supporting and coordinating the work of class agents, supplying counsel and assistance to the work of class agents and representing the class viewpoint on the Board of Directors.

The President Elect studies the workings of the Association in order to more ably carry out the future duties as President. The President Elect assumes responsibility of the Presidency upon the request, resignation or incapacitation of the President. She also serves as Chairman of the Nomination and Election Committee.

Mrs. Wills encourages individual alumni, chapter presidents and class agents to make nominations for these positions. Before making the nomination, it is the nominator's responsibility to have secured the nominee's permission to have her name submitted.

Golden Club Organized

Board of Director member Anita Pepmeyer Bennett '22, proposed the organization of a Golden Club at the February Board of Directors' meeting. Plans were formulated for such a club whose members would consist of any alumnus who already has celebrated a 50th reunion.

Nearly 400 letters were sent to members of the classes of 1913-24 inviting them to a Golden Club organizational meeting. Over thirty alumni (10% of those eligible) attended the charter meeting of the Golden Club held during Homecoming. A brief business meeting was conducted by Anita Pepmeyer Bennett '22, Golden Club sponsor. It was decided that a Golden Club pin will be available to members at a reasonable cost and that meetings will be held each year during Homecoming.

Golden Club membership certificates were awarded to those in attendance who had pre-registered for Homecoming. Certificates will be sent to those who registered during the weekend. Each person also was registered as a charter member in the Golden Club Book.

During the social hour, which followed the business meeting, members enjoyed looking at old pictures brought by the other members. Refreshments were provided by hostesses Helen Hart Frasse '23 and Anita Pepmeyer Bennett '22.

Group pictures are available.

The following alumni were present:

Anne Ware Bedinger '13
Edna Gibbs Hunter '15
Margaret Sayre Ransome '15

The Alumni Fund is progressing ahead of the 1974 fund and for that the Fund Committee is appreciative. However, we still are 500 donors and nearly \$20,000.00 from our goal (as of May 1).

Alumni, faculty and staff members and parents are responding enthusiastically to the current campaign. Faculty and staff and parent gifts have shown the highest rise in donors and amounts.

Funds raised this year have supported the following:

- * **Alumni Office, equipment, supplies, staff**
- * **Alumni Programs**
- * **Gretter Simpson International Scholarship**
- * **Michael Houston Memorial Scholarship Fund**
- * **Library**
- * **Campus Day Care center**

Nearly \$3,000 in pledges was received as a result of the cooperative efforts of these chapters and their outstanding volunteers. These chapters are to be commended for their enthusiasm, hard work and success at the telefund effort.

ALUMNI RECOGNITION DAY:

President Prince B. Woodard and the Alumni Association have invited members and spouses of the 1975 Chapter, Facetter and Leadership Clubs to campus for Alumni Recognition Day, June 28. Activities will begin with a lawn luncheon given by the Board of Directors and end with cocktails and dinner at Brompton. Our 60th reunion was an "Occasion for Celebration." Margaret Sayre Ransome, Elsie Wood Rice, Edna Gibbs Hunter and Ruth Carter Vellides did just that.

The new president, Prince B. Woodard, was inaugurated with a great ceremony. I am sure he will keep the College on the right track.

Edna has recently lost a sister and nephew. Her sympathy to her. Called *Belle Linticum* Masters and found she had been sick since February '74.

Margaret reports that *Janet LaCrosse* Hankin is not well. *Samuel Gouldman* McAllister has fallen again on an icy porch and is suffering from bruises. Letters from *Forrest Hiter Bowie*, *Anne Harris Schumacher*, *Sarah Burke Spindle Bates*, *Margaret*, *Elsie* and *Alva Constance Birmingham*.

Elizabeth Ninde Bryan's new address is 8236 Wythe Ave. She has an apartment in Keswick Gardens.

I spent Christmas and half of January with my second son, Jack, and his family in Richmond and then went to Lynchburg to visit with number three son, Bill, and family.

I had a new address for *Sara Bruce Gordon* and wrote her and received the following reply. Her husband was ill for so long and giving herself to nursing him left little time for anything else. After his death last summer, she moved to the Baptist Home in Culpeper. She likes the home, says it is very pretty. She has met a couple of MWC Alumni there who have been very kind. They are *Mollie Orick* and *Elizabeth Dickinson Thurnburn*, who graduated in the 1920's.

Elsie King Moreland writes that she is the *Elsie* referred to in the last two issues of MWC Today. Sixty years is a long time, but her remembrance is of good years at MWC and since. She has had a happy married life and she and her husband, Duke, celebrated their fiftieth wedding anniversary Christmas, 1973. Their only son died following years of illness from World War II but has left them grandchildren plus three great-grandchildren.

She became a social worker during the depression, going back to school, all of which she loved. She became a free lance writer and attributes her beginning interest in writing to Miss Dora Dadmun's English class. One of her articles published in *Coronet* was chosen for the anthology, *Better Language & Thinking*, an English textbook for college freshmen. A copy of this anthology is in the MWC library.

Homecoming this year was a gala event especially for the Golden Club members, classes '13 through '25. *Elsie Lee Michie* Behrend and I were the only ones of our class present for the Inauguration.

Effie Berry Fuqua, recently widowed, and her daughter, Virginia, attended the Inaugural luncheon. *Margaret White Bear* got to the annual alumni meeting and stayed most of the day.

At the Golden Party at Spotswood we were able to see many of our old friends and meet new ones. *Illus Hudson Orrell* came for this, making five of our class to attend. We were delighted to meet two sisters of Mrs. Bunyon Y. Tyner, namely Mrs. *Willie Bivens Snipes* and Mrs. *Dorothy Bivens Laney*. *Margaret White Bear's* husband, Dr. James E. Bear, taught at Union Theological Seminary for 32 years, now retired. They live in a Retirement Cottage at Sunnyside Home, near Harrisonburg.

Dr. Bear preaches, teaches Bible classes and has fun working in the yard. He, with 15 others, founded, at Washington and Lee in 1914, the National Honor Society of O.D.K. He and one other professor are

the only living survivors. Last year in New Orleans at the O.D.K. National Convention, the two were made past presidents of the association. They have four children.

While visiting my daughter, *Imogen Daniel Cummins* '59 in February, I tried to contact each classmate living in Richmond about coming to Homecoming. I was only able to get *Ada Nash Carlton* and *Mildred Brown Ragland*. Ada had a broken wrist and Mildred's husband was in the hospital, so neither could come, but wished to be remembered to all their friends.

Effie was taken ill after her husband's funeral, but has recovered. Her new address is: Mrs. *Effie Berry Fuqua*, 1305 N. Amelia St., Sterling, Va. 22170. Michie still visits her sister and friend in Arlington often. When home she is busy taking friends to the stores, doctors and to Senior Citizen's activities.

Homecoming was just perfect, and I am so sorry you "girls" missed it. *Mary Ellen Burke Donald* and I were the only ones there from our class.

I had a nice letter from *Nellie Hodgson Warner*. She has sold her home and lives with her daughter at 2407 Garnett Ct., Vienna, Va. 22180. She has been visiting her son in Florida. She told me that she had just heard that *Mabel Foster Ford*, class of '18, died in 1974. She came to our Golden reunion.

Our Richmond club has one hundred and five members and is active. We did well on our Telford last month. It was fun talking to old friends and getting pledges. On May 3rd we had a luncheon for President and Mrs. Prince Woodard.

Homecoming was a big success for the class of 1940. For our class meeting on Saturday we had thirty "girls", Dr. and Mrs. C.G. Gordon Moss, one husband and one daughter. Many more husbands and daughters were on campus.

At our meeting each classmate gave a brief history of the past 35 years. **Maxine Morea** Sille has six grandchildren. Since then, I have heard from **Beula Mason** Evans that she also has six grandchildren.

The following news came from girls who wrote to me but could not come to the reunion:

Beula Mason Evans is teaching at a private school in Exmore. She went to Germany in April. Both of her sons are farmers. One is an industrial arts instructor in addition to his farming.

Virginia Cartwright is a librarian in an elementary school in Danville. **Hazel Wilhoite** is now assistant state supervisor in home economics education. **Virginia Lewis Dalton** couldn't come to our reunion because she was directing a conference of four hundred educators that weekend. After earning a Normal Professional Certificate in 1938, **Ann Rooney Smols** earned her bachelor's and master's degrees from William & Mary. In the years since graduation the Smols has raised three daughters, all of whom are married. Two of the three ended up teaching — as Ann still does.

After MWC, **Old Years** Olson spent three years teaching, three years as a WAVE Communications Officer and so far, thirty years of widowhood and twenty-four years of motherhood. Carl is a Wall Street lawyer who spent 25 years working with Latin-American utility companies. They lived for various periods in Mexico, Guatemala, Venezuela, etc. The Olsons have two sons and a daughter. Ole volunteers full-time in an after school program for black first grade children.

Helan Dale Rook Osborne and family live on the Magothy River near Severna Park, Md. Husband, Frank, plant engineer for a copper refinery, has been involved in and recovered from a helicopter crash and heart attack in the past five years. The Osbornes have four children.

Adeline Kirkpatrick Vines' husband retired in June, 1974 after 35 years with the U.S. Department of Agriculture. Adeline is enjoying pretty good health now after a long bout with illness. The Vines have three sons.

Jo Lee Fleet Edwards' tour of Brazil has been quite an experience, but they are looking forward to retirement.

Thanks to all of you who came to the reunion and who wrote to me. Thanks to **Mary Estes Itry** who helped me write letters.

Bertha McPhail Johnson and husband are living in Hattiesburg, Miss., and are now grandparents. They have two sons and the entire family is involved in a music business.

Something must be happening in Connecticut, but we haven't heard a thing from **Elizabeth Cox Lebo** since Homecoming in '74.

Woodward Morris's daughter is a student at U.Va.'s School of Engineering. **Virginia Garber Wood** and her daughter were in Richmond several months ago and spent the night with Frances. Virginia's daughter is finishing medical school at the University of Alabama in Birmingham and they were in Richmond for an interview at Medical College of Virginia.

A brief report on our 25th reunion - about 30 were present from our class. **Net Wilton** from California and **Carmen Zeppenfeldt Catoni** from Puerto Rico came the farthest, with **Mary Cottaringham Warren**, Ill., and **Oella Bauser** Bethard, Fla., coming next. The events of the day also gave us an opportunity to speak to some of our former professors: Dr. Dodd, Dr. Castle, Dr. Cabrera, Dr. Whidden, Dr. Black, Mrs. Read and Mrs. M. Klinesmith Kelly, to name a few. If you haven't been back to a reunion recently do plan to return in 1980 - we have such good times. A reunion booklet was compiled containing more than 100 brief biographies of our classmates. If you did not order one and would like to, write the Alumni Office. They are \$1.00.

It was good to see **Billie Mitchell** Hames who looks wonderful after a recent hospital stay. Her address is: 219 88th St., Virginia Beach, Va. 23451.

Carmen Zeppenfeldt Catoni surprised us as did **Net Wilton**. Carmen's oldest son is at the Conservatory of Music in Barcelona, Spain. Her daughter, Yelly, is a pre-Vet. student at Purdue. Luis, 19, is a junior at the University of Puerto Rico and youngest daughter is in high school. Carmen is presently employed as Director of Testing Department with an educational consultant company. Net is planning to stay on the East Coast for a while and do some visiting. She also looks very well after several hospital visits.

Marcy Weatherley Morris and **June** were at the activities. They are now proud grandparents of a granddaughter, Kelly.

To all who have been wondering what happened to news about our reunion a year ago, I must report that it was lost at the printers. Here is what I wrote.

To all of you who could not get to Homecoming in April 1974, the thirty-one of us who were there missed you. We also came up with a last minute contribution to the entertainment at the Homecoming Banquet. With a little practice, the group sang out our Alma Mater "Come Follow the Light" written by *Judy Gayman* and *Judy Dorn* in our Freshman year. *Carlene Mitchell* Bass accompanied us on the piano and *Betty Christopher Perry* sang the descant.

Those attending who came the longest distance were *Mary Ann Dorsey* Judy who flew in from the Chicago area. *Babs Wilton* Talafiero who flew up from Naples, Fla., and *Marcelle Crockett* Frank who came up from the New Orleans area for Homecoming and a visit with her parents who are now on the Eastern Shore. *Nancy Root Skinner* came from Massachusetts and *Bootie Simpson* Johnson stopped off on her way home to Atlanta from a New England trip. *Toula Droganis* Fotopoulos brought her daughter who will be in the freshman class this fall. There was much exchanging of children's pictures. Make plans to attend our 25th reunion now.

From letters recently received, I have learned that "*Peggy*" *Dwight McCartney* and family have been in London since February 1972, where husband, Jim, is a manager of Engineering and Operations for Gulf Oil Co., Eastern Hemisphere. Their two boys, David, 14, and Edward, 10, attend the American School where *Peggy* occasionally substitutes and she also enjoys antiquing and brass rubbing. She said that she was going to look up *Linda Lelandy* Sweet who is also in England now.

Pat Shipley Hook's youngest son, Thomas, S. Hook III, died of leukemia July 6, 1974, at 5 years of age. He had been fighting this disease since he was 18 months old. The Hooks, who are in Annapolis, Md., have one other son, Evan, 7. Our sympathy goes out to them.

Our 20th was so much fun! There were 27 alumni back and everybody looked terrific. All of you make a special effort to make it for the 25th. *Ann Grubbe* Blitchington is already making plans and she'd like your suggestions. Her address is 3720 Mooza Dr., Richmond, Va. 23234.

Hope you all ordered the reunion booklet and have caught up on the info about your special friends. The booklets are \$1.00 and can be ordered by contacting the Alumni Office. This column should fill you in on the activities of those who made it to MWC for the reunion. Those great dancers *Minnie Reilly* Mayberry up from South Carolina and *Sally Hanger* Moravitz from Falls Church seemed to enjoy catching up on the news at lunch from Mrs. Claudia Read, who retired from the MWC faculty this year. Sally is still very involved in dance activities and the activities of her 3 boys. Minnie is busy restoring a 1898 house.

Also restoring and renovating is *Marian Minor* in Richmond and *Betsy Callahan* Sijthoff. Marian also teaches full time and is active in civic affairs and MWC alumni activities. Betsy and husband, Bruce, recently bought and renovated Yowell's Hardware Store built in 1875 in Culpeper. The three sons add a helping hand.

Three of those present have husbands now retired from the services and into new jobs. *Minnie's* husband works now for a French conglomerate and is in the wool business.

Gretchen Hogsboom Fisher and *Jackie White-Jurek* Hertz have retired huddles and live in Virginia Beach. Jackie's husband now teaches

industrial arts in a junior high school. While in the service the family had lived on the West Coast and in Hawaii. *Gretchen's* "Skip" just retired in December from the marines as a Lt. Col. The oldest of the Fishers' 5 children is in college. *Gretchen* has been teaching kindergarten part time for 4 years.

Recently transplanted from Virginia Beach to Vienna, is *Sue Bedell* Albee. Sue's oldest is a freshman at VPI and even with 3 other kids at home, Sue is able to sell real estate and continues to be active in Navy Relief work.

Also down from the Washington area were *Carolyn White* McGeehan, *Eileen West* Genzelle and *Eleanor Pollock*. *Eleanor* teaches 4th grade in Fairfax and was just elected First Vice-President of the MWC Alumni Association.

Two of the gals from the Richmond area got new jobs on their tips north. *Carol Kolton* Bryson will serve as a new class agent and *Ann Grubbe* Blitchington will plan our 25th reunion. *Carol* has 2 boys and works part-time as a consultant dietitian to health care facilities in the area. *Hubbard*, Bill, has a private dental practice in Highland Springs. Ann's husband is an electrical engineer at Western Electric and they have 3 teenagers.

Felicia Spitzki Glave, mother of 5, lives in Ashland where she teaches 1st grade. Bill and partners have a camera manufacturing company in Richmond. At least eleven of those back are teaching either full time or part time. *Phyllis Wright* Powell, mother of 3 boys, teaches kindergarten and is building a new house in Churchville. *Gay Garland* Deitz, mother of 2 boys, teaches 3rd grade, is Youth Director for teens at Bethany Baptist Church and is also PTA vice president. *Christine Kris* Gray is one of our class's 2 principals. Chris is head of an elementary school in Suffolk and with her husband operates a riding academy that provides summer camp experiences.

Others in the business world include *Jean Byrd* Steelman who has her own seedwork supplies shop, "The Spinning Wheel" in Onley, Va. *Jean* has a 20-year-old. *Groce Vane* Saunders, came from Wilmington, Del. where she works as a wedding stationery consultant in her husband's printing business.

Many of the returnees were from out-of-state. *Ann Hunsford* McKelvey came in from Port Chester, N.Y. *Hubbard* Richard is Vice President in charge of the Estate Department with the Bank of New York. From her many tales of traveling and phoning, "*Miss*" was full of information on a lot of our alumni. *Eloise Reed* Gabrik's husband John works for A&T in New Jersey. Also from New Jersey was *Nancy Lange* Krautter who lives in New Providence. She has 3 daughters ranging in age from 5 to 12. Although *Eileen Cella* Manza teaches high school physical education in Trenton, N.J., she has a lovely apartment in Yardley, Pa.

Rhoda Browning McWilliams drove down from Baltimore with her 16 year old son and his girlfriend on Saturday. She has been very active in MWC alumni activities having served both as president and vice president of the Baltimore chapter. *Rhoda* also has an 18 year old daughter. *John Piedmont* Gruppe and *Henry* came in from Bethesda, Md. for the day. He worked at the State Department with another Henry! They have 3 children and their oldest daughter will be going to MWC next year. A first!

Dotty Booth Saunders, husband Dewey and 7 year old son who came in from Charleston, combined our reunion with a sightseeing trip to Washington, D.C. *Nancy Shope* Armbruster and her family of 4 children ages 8 to 16 live in Sanie Fe, N.M., where her husband is a surgeon.

My volunteer activities to be pretty hectic with 2 children and many volunteer activities. Serving for 6 years on the YWCA Board of Directors, community chairman for the United Fund two years and the cancer drive this April, as well as FTA president, Great Books discussion leader, volunteer school librarian, church and AAUW activities keep me pretty busy. My husband Ted has been engineer with Ford Motor Company for 19 years and will be President of Detroit SAE (6,000 members) next year. After dabbling in most crafts for the last 10 years, I'm now getting back to the fine arts. I would love to hear from the rest of "our gang" as to their art activities.

At the reunion *Carol Kolton* Bryson and I were designated class agents until 1980! *Carol* will keep up with A-K (maiden names) and I will do L-Z. We will try to keep up the fine work done by Bea and Joan (a difficult task) but we need your help. Keep us informed as to your moves, kids, activities, etc. Remember we are both only a stamp away.

Some reunion statistics:

Oldest child (of those present), age 20, belongs to *Jean Page Byrd* Steelman.

Youngest child, age 5, belongs to *Nancy Lange* Krautter.

Married the longest, 23 years, married while in school, *Eloise Reed* Gabrik.

Traveled the farthest to reunion, *Nancy Shope* Armbruster, Santa Fe, N.M.

Largest number of children, 7, *Gwen Forsyth* Meplen.

Largest number of children at reunion, S. *Felicia Spitzki* Glave.
